

The state made a significant positive impact on public education in 2019.

\$6.5 Billion

increase to public schools over the next two years through House Bill 3 makes 2019 the "Public Education Session."

Full-day Pre-K for eligible 4-year-olds ensures all students have a fair shot at success in school and life.

Teacher pay raises will be provided using at least 30 percent of each district's increase in funding.

But, there is still work to be done ...

Texas lags in student spending

Source: Quality Counts 2019

Texas would have to increase the public education budget by **\$40 billion** just to reach the national average.

*Does not include HB3 funding

Texas must continue to focus on

Let's make every session a public education session!

Our schools, our future, depend on it.
